| CPM – Project Management and Design Services        | • Limited scope Bridge Deck / Superstructure group solicitation with multiple assignments  
• Limited scope pavement resurfacing group solicitation with multiple assignments  
• Project Bundling solicitations in which similar projects are bundled into a single project for design and/or construction. Types of projects may include:  
  o D&R Canal bridge replacement projects  
  o other bridge replacement projects  
  o intersection improvement projects  
  o others that might lend themselves to bundling  
• Individual design project solicitations in FY20-21 program  
• General Engineering Services Term Agreements (15-20)  
• Pavement Design Term Agreements (up to 3)  
• Federal Survey Term Agreements (up to 5)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| CPM – Construction Inspection                       | • Estimated 50 construction inspection projects (25 per year)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| CPM – Bridge Inspection                              | • Multiple NBIS and State bridge inspections on a bi-annual basis (estimated 30 per year)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| TOSS – Design Operations Support                    | • Roadway and Drainage Engineering Services (up to 3 term agreements)  
• Bridge Engineering Services (up to 2 term agreements)  
• Movable Bridge Engineering Services (1) Term Agreement  
• Bridge Fender Replacement Engineering Services (1) Project Specific Agreement  
• Bridge Scour Countermeasures Engineering Services (1) Project Specific Agreement                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| TOSS – Construction Inspection Operations Support    | • Up to 9 Term Agreements for Operations construction inspection  
• Up to 47 Project Specific Agreements for Operations Support                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| TOSS - ITS                                           | • On-call ITS System Integrator  
• Smart Moves Final Design Agreements  
• Adaptive Traffic Signal Corridor Agreements  
• Onsite management of Traffic Signals Agreements                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Maritime                                             | • Maritime - Engineering Services for the State Channel Dredging Program  
• Marine Transportation Planning  
• Maritime – Survey  
• Maritime – Dredged Material Management  
• Various Federal Ferry related solicitations                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Planning                                             | • NIDOT Infrastructure Research, Multiple Statewide Projects  
• Highway Safety Improvement Program (HSIP) Project Development and Support  
• Development of the Statewide Long Range Plan                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Local Aid                                            | • Transportation Assistance (TA) Set-Asides, multiple Statewide assignments                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
